Delivering Good Governance Framework

The Chartered Institute of Public Finance and Accountancy/Solace Delivering Good Governance in Local Government Framework (2016) (the Framework) requires the Fire and Rescue Authority to publish an Annual Governance Statement, to demonstrate that:

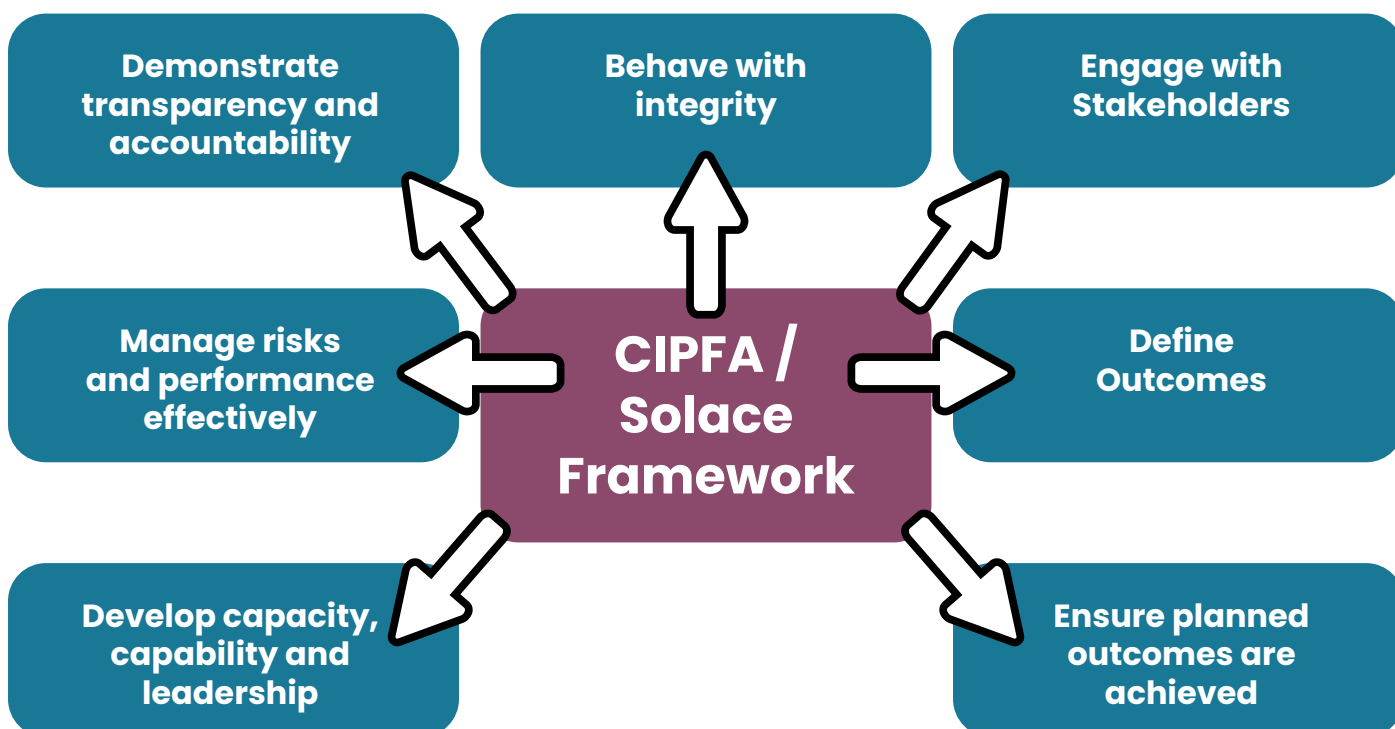

- business is conducted in accordance with all relevant laws and regulations
- public money is safeguarded and properly accounted for
- resources are used economically, efficiently and effectively to achieve agreed priorities which benefit local people.

To fulfil its wide range of functions, the Authority must satisfy political, economic, social and environmental objectives over the short, medium and longer term. This subjects it to a different set of external and internal constraints and incentives from those found in the private sector, all of which affect its governance arrangements. A key piece of legislation in Wales is the Well-being of Future Generations (Wales) Act 2015, which requires the Authority to consider the longer term in making its decisions and to work collaboratively with other public bodies to improve well-being in Wales.

Stakeholders are, therefore, interested in issues such as:

- whether the Authority's planned outputs have been delivered and outcomes achieved
- whether this has been done in an efficient, economic, effective and equitable manner.

The core principles underpinning the CIPFA/Solace Framework are set out below. The following pages detail how the Authority is meeting these principles.

Key Contributors to Developing and Maintaining the Governance Framework

<p>Fire and Rescue Authority</p>	<p>Provides the strategic leadership, political interface and corporate challenge in relation to the provision of fire and rescue services across North Wales, encouraging public participation and conducting its affairs in an open and transparent manner. It agrees the Improvement and Wellbeing Plan, and the revenue and capital budgets</p>
<p>Executive Panel</p>	<p>Monitors the performance of the Service and makes recommendations to the Authority on its key policies including the Improvement and Wellbeing Plan. The Panel reviews the strategic risk register.</p>
<p>Fire Authority Working Groups</p>	<p>Undertakes detailed work associated with the Authority's planning and budget-setting process. It submits its observations to the Executive Panel which in turn makes recommendations for improvement/risk reduction/well-being objectives to the Authority.</p>
<p>Audit Committee</p>	<p>Provides independent review of the governance, risk management and control frameworks and oversees the financial reporting, including the Treasury Management Strategy and annual accounts.</p>
<p>Standards Committee</p>	<p>Promotes and maintains high standards of conduct by Members of the Authority and oversees the whistle-blowing policy for complaints against Members of the Authority. Also, where statute permits, to receive reports and complaints about Members and to conduct or oversee investigations and make recommendations to the Authority.</p>
<p>Service Leadership Team</p>	<p>Sets and leads the implementation of the governance standards across the Service. Receives the annual improvement plan and feeds into the annual self-assessment.</p>
<p>Internal Audit</p>	<p>Provides an annual independent and objective opinion on the adequacy and effectiveness of internal control, risk management and governance arrangements. Investigates fraud and irregularity.</p>

Summary: Governance Arrangements

The Authority is required to review the effectiveness of its arrangements each year to ensure that there is a sound system of governance. The key contributors to this process are summarised on page 2 and include:

- Regularly reviewing the effectiveness of the Authority's Constitution.
- Having an Authority and committee structure that:
 - ◊ monitors the effectiveness of risk management arrangements
 - ◊ regularly reviews the governance arrangements
 - ◊ considers and reviews internal and external audit strategies, plans and reports
 - ◊ reviews, scrutinises and approves the annual statement of accounts.
- Having an Executive Board that:
 - ◊ provides leadership on governance
 - ◊ contributes to the completion and review of the Annual Governance Statement
 - ◊ provides clear direction to the Service and senior managers.
- The use of information from various sources to inform the governance arrangements, for example:
 - ◊ Improvement and performance board reports
 - ◊ risk management arrangements
 - ◊ external regulator reports
 - ◊ the Internal Audit Annual Report.

Achievements against the core principles are set out within pages 6-12. The Authority's agreed improvement actions for 2022/23 are contained on pages 13-16, which confirms the progress made.

Governance Arrangements

The new Authority was established in the summer of 2022 following local elections. A number of Member engagement days were implemented to support the induction of new authority members, with a focus on the assurance and governance arrangements in the Authority.

The Fire and Rescue Authority's normal schedule of meetings continue to be attended remotely. This arrangement continues to work effectively and is likely to continue until such time as a technical solution can be found to enable webcasting and simultaneous English translation of Authority meetings if some participants wish to attend in person and others remotely.

In early 2023, the Authority has established three working-groups to support the development of three key organisational priorities:

- The Emergency Cover Review Working Group
- The Environmental Strategy Working Group
- The new Training and Development Centre Working Group.

At its meeting in March 2023 the Authority approved a revised Corporate Plan 2021- 24 which:

- confirmed the Authority's existing long-term objectives
- outlined what actions were planned for 2023/24
- reflected the key challenges facing the Authority
- took account of recent Audit Wales findings and recommendations
- considered the ongoing work of the Public Services Boards
- ensured preparedness for an updated National Framework and recommendations from the Well-being of Future Generations Commissioner's office
- aligned with the Authority's revenue budget, capital plan and medium-term financial plan.

The Service Leadership Team (SLT), chaired by the Chief Fire Officer, comprises of Principal Officers, Area Managers and Heads of Department. It meets as a Performance Board to scrutinise performance, and as an Improvement Board to provide challenge and senior oversight of programmes, projects and policies.

Following the introduction of a new organisational structure in April 2022, a 'light touch review' of the structure was completed in line with its first anniversary. Ensuring staff consultation, this has resulted in the organisation creating additional capacity, more efficient and effective working, whilst reducing costs.

The Service Governance Structure of committees and groups, reporting up to SLT, are now embedded across the organisation. Demonstrating robust governance across reporting, monitoring, scrutiny and decision-making within all areas of the organisation.

The importance of keeping staff informed and engaged continues to be a key priority, internal communications have increased considerably e.g. through the Workplace Facebook platform, an enhanced programme of visits by Principal Officers to Fire Stations and departments, and regular meetings with middle and Supervisory Manager groups to cascade information on progress to date and to discuss what is expected from staff at all levels.

Defining outcomes in terms of sustainable economic, social and environmental benefits

- The Improvement and Well-being Plan sets the strategic direction for the Authority and details the improvement objectives in accordance with the Local Government (Wales) Measure 2009, and well-being objectives in accordance with the Well-being of Future Generations (Wales) Act 2015.
- The Service has four core values – People, Diversity and Inclusivity, Striving For Excellence and Service to the Community. These summarise the principles and personal values that staff are encouraged to adopt and demonstrate. [Core values](#)
- The Service has gained White Ribbon accreditation which demonstrates a commitment to stop violence against women.
- The Service has a statutory duty to put in place business continuity arrangements. Plans across the Service have been updated. There is ongoing collaboration with the other fire and rescue services in Wales to improve planning and consider current risks. The National Issues Committee includes a business continuity work stream.
- The Medium-Term Financial Strategy (MTFS) and annual budget process aims to ensure that financial resources are directed to the Authority's priorities.
- Partnership working is undertaken where there are shared objectives and advantages from working together – for example, the Strategic Arson Reduction Board and Public Services Boards.
- The Strategic Risk Management Policy sets out the process used to identify and control exposure to uncertainty, which may impact on the achievement of the objectives or activities. This is reviewed throughout the year to ensure that risks are identified and appropriately assessed.
- The Corporate Risk Register records these risks, and they are regularly monitored, by the Corporate Planning Department and reported to the Executive Panel.
- Key decisions are subject to an integrated impact assessment, which takes account of equality; data protection; health, safety and wellbeing; Welsh language; finance; sustainability and staffing; Well-being of Future Generations (Wales) Act 2015 and the socio-economic duty that came into force on 1 April 2021.
- Safeguarding policy and procedure are in place to refer vulnerable people the Service come into contact with, to other agencies.
- The Equality, Diversity and Inclusion Steering Committee provides strategic oversight and governance.

Determining the interventions necessary to optimise the achievement of the intended outcomes

- Public consultation is carried out as part of setting the Authority's objectives which are set out in the Improvement and Well-being Plan. This outlines how the Authority intends to work together with other public bodies to tackle the complex issues that affect people's lives. An assessment of the Authority's performance is published in October each year.
- The Authority's Strategic Risk Management Policy sets out the process used to identify and control exposure to uncertainty, which may impact on the achievement of the objectives or activities. This is reviewed throughout the year to ensure that risks are appropriately managed.
- Following scrutiny from the Executive Group, performance and financial reports are presented to the Authority and its committees.
- Monitoring of availability, incidents, the workforce and budgets, through the governance structure, ensures that issues are identified and appropriate interventions agreed.
- National Operational Guidance and Joint Operational Learning available, which the Organisational Learning Committee provides strategic oversight and governance and implements any changes.
- There is a significant amount of partnership working across Wales to respond to issues facing the fire sector and other more general public sector issues. Collaboration with multiple agencies is an important aspect of the Authority's work including prevention and protection, responding to incidents and use of resources. The Service is an effective member of the All Wales Joint Emergency Service Group, for which the CFO is the Deputy Chair. Supporting our response to the national report by Audit Wales published in January 2022 on Joint Working Between Emergency Services. <https://www.audit.wales/publication/joint-working-between-emergency-services>.
- The budget planning processes ensure budgets are prepared in accordance with objectives, strategies and the Medium-Term Financial Strategy (MTFS). This involves input from both Service leads and Authority Members. It shows how the resources will be deployed over the next few years to deliver agreed outcomes and agreed priorities. The Budget, Monitoring and Procurement Committee provides strategic oversight and governance.
- Audit Wales's review of corporate resilience (April 2021) found that the Authority had demonstrated its short-term resilience, https://www.audit.wales/sites/default/files/publications/north_wales_fra_corporate_resilience_english.pdf. In relation to Governance, it found that the Authority had an appropriate governance framework but that Members needed to play a more central role in addressing the big risks facing the Service. During 22/23 the membership of the FRA changed significantly, in response, a new Member induction was developed. This included orientation of our Statutory Duties and services delivered across NWFRS, emphasising the roles and responsibilities of Authority Members. These inductions were repeated as the Authority membership changed through the year. The scrutiny of budgets and risks facing the service are evidenced through the establishment of FRA Member working groups to give direction in the development of the Emergency Cover Review, Environmental Strategy 2023-2030 and New Training Centre project.

Developing the entity's capacity, including the capability of its leadership and the individuals within it

The Authority's Constitution outlines the roles of elected members and designated officers to enable shared understanding of roles and objectives. The designated posts include the Chief Fire Officer, Treasurer and Monitoring Officer.

The scheme will enable those with proven leadership skills, from a variety of sectors, to apply for Station Manager roles without needing to have fire service experience or without needing to have taken the traditional firefighter promotional route.
- The health and wellbeing of the workforce is key to the organisation and support is provided to maintain physical and mental wellbeing. This is achieved through a range of measures including HR policies and guidance documents, flexible working approach, the occupational health service and the employee assistance programme. To which the Health, Safety & Wellbeing Committee provides strategic oversight and governance.
- The Service has a dedicated training department, with competency frameworks for operational staff. Training is delivered using a variety of methods including e-learning modules which are mandatory for certain subjects e.g. Data Protection. To which the Organisational Learning Committee provides strategic oversight and governance.

Compliance with the Financial Management Code

The CIPFA Financial Management Code (CIPFA FM Code) is designed to support good practice in financial management and to assist the Authority in demonstrating their financial sustainability. The CIPFA FM Code therefore sets the standards of financial management for the Authority.

The Code is based on a series of principles supported by specific standards and statements of practice which are considered necessary to provide the strong foundation to:

- Financially manage the short, medium- and long-term finances of the Authority
- Manage financial resilience to meet foreseen demands on services
- Financially manage unexpected shocks in their financial circumstances.

Each Authority must demonstrate that the requirements of the Code are being satisfied.

As Section 151 Officer I have the Statutory Responsibility (supported by the Senior Leadership Team and Members of the Authority) for ensuring compliance with the CIPFA FM Code. I have carried out a full assessment of compliance with the CIPFA FM Code as part of the annual review of the Annual Governance Statement and I can confirm that in my opinion the Authority is compliant with the code in the majority of areas.

Areas of improvement, however, have been identified, many of which are already underway, including:

- The introduction of a new financials system in 2022/23 will require further development of the budget setting and monitoring processes to embed long term decision-making and consultation as core principles.
- Continue to develop the latest Medium-Term Financial Strategy and begin considerations early, on options for ensuring a sustainable budget, including exploring any opportunities for transformation of services.
- Develop a clear long-term capital strategy and plan, for up to 10 years.

Governance Opinion and Conclusion

The Authority recognises that good governance provides the foundation for the delivery of good quality services that meet the needs of stakeholders and ensures that public money is well spent. This review confirms the governance systems and monitoring in place for 2022/23 and the steps taken to ensure that they are working effectively.

The Authority is satisfied that appropriate governance arrangements are in place and remains committed to enhancing these through the implementation of the action plan for 2023/24.
